

SLEEPLESS

Your Event Discovery Platform

App Functions & Benefits Guide

A Complete Overview for Users

Introduction

Sleepless is South Africa's premier mobile application for discovering, booking, and experiencing events across all nine provinces. Whether you're looking for daytime festivals, pool parties, concerts, or late-night club events, Sleepless puts the entire entertainment landscape at your fingertips.

This guide provides a comprehensive overview of the app's features, functionality, and the benefits it delivers to event-goers and the entertainment community.

Getting Started

Account Creation

Creating a Sleepless account is quick and simple. Users can register using traditional email and password credentials, or take advantage of social login options for faster access.

Registration Method	Process	Time Required
Email & Password	Enter username, email, password, and confirm	2 minutes
Google Sign-In	One-tap authentication with Google account	10 seconds
Apple Sign-In	Face ID/Touch ID authentication with Apple ID	10 seconds

Once registered, users gain immediate access to all app features including event discovery, bookings, and social features.

Profile Customization

Sleepless allows users to personalize their experience through profile customization. Users can upload a custom avatar photo directly from their device gallery and set a display name that appears throughout the app. This personalization helps build community and makes social features more engaging.

Core Features

1. Event Discovery

The heart of Sleepless is its powerful event discovery system. Users can explore events through multiple pathways designed for different discovery styles.

Geographic Navigation

Sleepless organizes events by location, making it easy to find what's happening in your area. The app covers all nine South African provinces:

Province	Major Cities Covered
Gauteng	Johannesburg, Pretoria, Sandton
Western Cape	Cape Town, Stellenbosch
KwaZulu-Natal	Durban, Umhlanga
Eastern Cape	Port Elizabeth, East London
Free State	Bloemfontein
Mpumalanga	Nelspruit, Mbombela
Limpopo	Polokwane
North West	Rustenburg
Northern Cape	Kimberley

Users navigate from province to city to view all events in their selected location.

Smart Search

The global search feature allows users to find events across all provinces instantly. Search works across multiple fields including event name, venue, city, artist, and event category. Recent searches are saved for quick access, and quick filter buttons help narrow results by event type.

Calendar View

For users who prefer planning by date, the calendar view displays events in a familiar monthly format. Days with scheduled events show a count badge, and tapping any date reveals the events happening that day. This feature is particularly useful for planning weekends or special occasions.

2. Event Information

Each event in Sleepless comes with comprehensive information to help users make informed decisions.

Event Details Include:

Information	Description
Event Name & Poster	High-quality promotional artwork
Date & Time	When the event takes place
Venue & Location	Where the event is held with map access
Price	Ticket cost with any available tiers
Event Type	Category (Club, Festival, Concert, Pool Party, Rooftop)
Description	Full event details, lineup, and what to expect
Transport Options	Uber, taxi, and parking information

Location & Directions

The location screen provides venue details and transport options. Users can view the venue address, access directions through their preferred navigation app, and see available transport methods including ride-sharing services, taxis, and parking availability.

3. Event Filtering

Finding the perfect event is easy with Sleepless’s comprehensive filtering system.

Filter Type	Options
Event Type	Club Night, Festival, Concert, Pool Party, Rooftop
Price Range	Free, Under R100, R100-R300, R300+
Date	Today, This Weekend, This Week, This Month

Filters can be combined to narrow results precisely. For example, users can search for “Pool Parties under R200 this weekend” with just a few taps.

4. Ticket Booking

Sleepless provides a complete ticket purchasing experience without leaving the app.

Booking Process:

The booking flow is designed for simplicity and security. Users select their desired event, choose the number of tickets, review the total price including all fees, and proceed to payment. The entire process takes less than two minutes.

Step	Action
1	Select event and tap “Book Tickets”
2	Choose ticket quantity (1-10 tickets)
3	Review order summary and total price
4	Enter payment details
5	Confirm booking and receive QR ticket

Payment Methods:

Sleepless supports multiple payment options to accommodate all users.

Payment Method	Description
Credit/Debit Card	Visa, Mastercard, American Express
EFT	Direct bank transfer
Mobile Wallet	Digital payment solutions

All transactions are secured with industry-standard encryption, and users receive instant confirmation upon successful payment.

5. QR Code Tickets

Every booking generates a unique QR code ticket that serves as the entry pass to the event.

QR Ticket Features:

Feature	Benefit
Unique Verification Hash	Prevents counterfeiting and fraud
Offline Access	Tickets accessible without internet connection
Easy Scanning	Quick entry at venue gates
Digital Storage	No paper tickets to lose

Users can access their tickets anytime from the “My Bookings” section. The QR code contains encrypted booking information that venues can verify instantly using the Sleepless scanner app.

6. Favorites & Bookmarks

The favorites feature allows users to save events they’re interested in for later reference.

How It Works:

Users tap the heart icon on any event detail page to add it to their favorites. All saved events appear in a dedicated Favorites screen accessible from the home page. This feature is perfect for tracking events while deciding which to attend or comparing options before booking.

Favorites are stored locally on the device and persist across app sessions, ensuring users never lose track of events they’ve marked.

7. Event Reminders

Never miss an event with Sleepless’s reminder system. Users can set push notification reminders for any event at customizable intervals.

Reminder Option	When Notification Arrives
1 Hour Before	60 minutes before event start
1 Day Before	24 hours before event start
1 Week Before	7 days before event start

Reminders appear as push notifications on the user's device, even when the app is closed. This ensures users have time to prepare, arrange transport, and arrive on time.

8. Social Features

Sleepless includes social features that enhance the event experience.

Event Sharing

Users can share event details with friends through any installed app including WhatsApp, SMS, email, Instagram, and more. The share function generates a formatted message with event name, date, venue, and a link to view the event in Sleepless.

Comments & Community

Each event has a comments section where users can discuss the event, share excitement, ask questions, and connect with others planning to attend. Users can like comments and engage with the community.

9. Push Notifications

Stay informed with Sleepless push notifications. Users can enable notifications in the About section to receive updates about new events in their area, special promotions, and event reminders.

Notification Type	Content
New Events	Alerts when events are added in favorite cities
Reminders	Pre-event notifications for saved events
Promotions	Special offers and early-bird discounts
Updates	Changes to booked events (time, venue, etc.)

Notifications can be enabled or disabled at any time through the app settings.

Navigation & User Experience

Intuitive Navigation

Sleepless is designed for effortless navigation with multiple ways to move through the app.

Navigation Method	How It Works
Back Button	Tap the arrow icon to return to the previous screen
Home Button	Tap the home icon to return to the main screen
Swipe Gesture	Swipe from the left edge to go back (iOS/Android)
Breadcrumb Trail	Tap any level in the breadcrumb to jump directly

The breadcrumb trail shows the current navigation path (e.g., “Home > Gauteng > Joburg > Event Name”), allowing users to jump to any level without going back step by step.

Smooth Animations

All screen transitions feature smooth slide animations that provide visual feedback and create a polished, premium feel. Screens slide in from the right when navigating forward and slide out to the right when going back.

Benefits for Users

Convenience

Sleepless consolidates the entire event discovery and booking process into a single app. Users no longer need to search across multiple social media platforms, visit different websites, or make phone calls to find and book events. Everything happens in one place, saving time and reducing friction.

Security

The QR code ticketing system eliminates ticket fraud, a significant problem in the South African entertainment industry. Each ticket contains a unique verification hash that cannot be duplicated, ensuring users always have legitimate entry to events they've paid for.

Discovery

The smart recommendation system and comprehensive filtering help users discover events they might otherwise miss. Whether searching by location, date, price, or event type, Sleepless surfaces relevant options that match user preferences.

Planning

The calendar view and reminder system make event planning effortless. Users can see their entire entertainment calendar at a glance and set reminders to ensure they never miss an event they're excited about.

Community

Social features connect event-goers with like-minded people. Sharing events with friends, reading comments, and engaging with the community enhances the overall entertainment experience.

Savings

By comparing events and prices in one place, users can find the best value for their entertainment budget. The app also features exclusive promotions and early-bird discounts not available elsewhere.

Benefits Summary

Benefit	Description
Time Savings	Find and book events in minutes, not hours
Fraud Protection	QR tickets eliminate counterfeit ticket risk
Better Discovery	Find events you'd never know about otherwise
Easy Planning	Calendar view and reminders keep you organized
Social Connection	Share events and connect with the community
Cost Savings	Compare prices and access exclusive deals
Convenience	Everything in one app, accessible anywhere

Technical Requirements

Supported Platforms

Platform	Minimum Version
iOS	iOS 13.0 or later
Android	Android 8.0 (API 26) or later
Web	Modern browsers (Chrome, Safari, Firefox, Edge)

Permissions Required

Permission	Purpose
Notifications	Event reminders and updates
Camera (optional)	Profile photo capture
Photo Library (optional)	Profile photo selection
Location (optional)	Find events near you

Getting Help

Support Options

Users can access help through multiple channels:

Channel	Access
In-App About Section	Tap “About” on the home screen
Email Support	support@sleepless.co.za
Social Media	@SleeplessSA on Instagram, Twitter, Facebook

Frequently Asked Questions

How do I get a refund? Contact the event organizer directly through the app’s event page. Refund policies vary by event.

My QR code won’t scan? Ensure screen brightness is at maximum and the code is displayed clearly. If issues persist, show your booking confirmation email as backup.

How do I change my password? Go to Profile > Settings > Change Password. You’ll need to enter your current password to make changes.

Can I transfer tickets to someone else? Ticket transfers depend on the event organizer’s policy. Contact them through the event page for transfer requests.

Conclusion

Sleepless transforms how South Africans discover and experience events. By combining powerful discovery tools, secure ticketing, and social features in one beautiful app, Sleepless makes it easier than ever to find your next great experience.

Download Sleepless today and never miss another event.
